Ideation Phase
Define the Problem Statements

Date	28 September 2026
Team ID	6ab221d587602313e82c60c9
Project Name	Import data using transform maps (spreadsheet)
Maximum Marks	2 Marks

Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	Describe the customer and their attributes here
I'm trying to	List the thing they are trying to achieve here
but	Describe the problems or barriers that get in the way here
because	Describe the reason the problem or barrier exists
which makes me feel	Describe the emotions the result from experiencing the problems or barriers

Example:

I am	I'm trying to	but	because	which makes me feel
a traveler	book flights on my phone	it takes a long time	the website is not intuitive and doesn't show what I need	Frustrated

Problem Statements for the project: Import data using transform maps (spreadsheet)

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS 1	A system administrator	Import spreadsheet (Excel/CSV) data into a table quickly	Entering data manually is slow and the spreadsheet columns do not match the table fields	There is no transform map linking the spreadsheet columns to the target table fields	Frustrated
PS 2	A data analyst	Load spreadsheet data into the table without errors or duplicates	Duplicate and invalid records get created during import	Coalesce and data validation are not set up in the import process	Worried
