Project Design Phase
Problem – Solution Fit Template

Date	28 September 2026
Team ID	6ab221d587602313e82c60c9
Project Name	Import Data using Transform Maps (Spreadsheet)
Maximum Marks	2 Marks

Problem – Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why.

Purpose:

- Solve complex problems in a way that fits the state of your customers.
- Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- Sharpen your communication and marketing strategy with the right triggers and messaging.
- Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- **Understand the existing situation in order to improve it for your target group.**

Template:

<table>
<tr>
<td>1. CUSTOMER SEGMENT(S) [CS]
System administrators / data managers who import bulk data into ServiceNow
HR and IT teams that receive employee data in spreadsheets</td>
<td>6. CUSTOMER CONSTRAINTS [CC]
Limited time for large data entry
Little knowledge of Import Sets and Transform Maps
Spreadsheet formats and data quality vary</td>
<td>5. AVAILABLE SOLUTIONS [AS]
Manual data entry: slow and error-prone
Custom scripts / third-party ETL tools: need developer skills and extra cost</td>
</tr>
<tr>
<td>2. JOBS-TO-BE-DONE / PROBLEMS [J&P]
Import bulk spreadsheet data quickly
Map spreadsheet columns to the correct fields
Avoid duplicate records and verify results</td>
<td>9. PROBLEM ROOT CAUSE [RC]
Spreadsheet structure does not match the ServiceNow table
No automated mapping, so data is entered by hand</td>
<td>7. BEHAVIOUR [BE]
Admins key in or copy-paste records one by one
Manually re-check data and repeat the work whenever data changes</td>
</tr>
<tr>
<td>3. TRIGGERS [TR]
New employees join and bulk data arrives
Data migration or update request
Errors or duplicates found in existing data</td>
<td>10. YOUR SOLUTION [SL]
Upload spreadsheet as a Data Source, load into an Import Set staging table
Use a Transform Map (field mapping, coalesce, scripts) to insert / update target records
Verify with Import Log and Transform History</td>
<td>8. CHANNELS OF BEHAVIOUR [CH]
ONLINE: ServiceNow Data Source, Import Set and Transform Map modules; import logs
OFFLINE: receiving spreadsheets by email / shared drive; cleaning data in Excel before upload</td>
</tr>
<tr>
<td colspan="3">4. EMOTIONS: BEFORE / AFTER [EM]
BEFORE: frustrated, tired of repetitive work, worried about errors and duplicates
AFTER: relieved, confident in accurate data, satisfied with the time saved</td>
</tr>
</table>
